

Training

# Countering Targeted Violence

**Mason City - May 10, 2018**  
Mercy Hospital East Campus  
1000 4th St. SW  
Mason City, Iowa

**1:00 PM - 4:30 pm**

Violent incidents have impacted communities across the country. In an effort to prevent these events, the Safeguard Iowa Partnership has teamed up with the Iowa Department of Homeland Security, the state of Iowa's Department of Public Safety and local officials to offer a training program that will help. This multi-part training will provide you with the tools and knowledge that are necessary to identify hazards. We will also work to improve how we communicate with partners which will help prevent these incidents from occurring in our communities.
